272,000 SF on 5 Acres

SkyCenter One at the Tampa International Airport

VanTrust broke ground November 2019 on the new, nine-story SkyCenter One office building, located in a prime spot in the new SkyCenter development. The 272,000-square-foot building will include a conference center, fitness center, café, and access to multipurpose trails. The building will be connected to an elevated pedestrian walkway to the atrium and SkyConnect train station at the Rental Car Center. The project is expected to be completed in 2021. The Hillsborough County Aviation Authority will occupy three floors and will serve as the primary home for the Authority's employees and the nerve centers for all airport operations.
